

Privacy Policy – VII Sport Platform

Effective date: October 17, 2025

VII Sport Platform ("the App") is developed and operated by SEPSAP - Special Electronics, Planning, Solutions and Projects.

This Privacy Policy explains how the App handles user data and information.

1. Data Collection

The App does **not require registration** for most features.

Functions such as Notice Board, Results, Feed, and Files are available without collecting any personal information.

When using the chat feature (available only to authorized teams and officials), the App may process:

- User ID or authentication token
- Message content exchanged between users

These data are transmitted securely and stored on the official VII Sport servers for communication purposes only.

2. Data Usage

Collected data are used solely to enable app functionality — such as delivering messages, showing official event information, and providing notifications about new documents.

3. Data Sharing

VII Sport Platform **does not sell or share** user data with any third party.

Information is shared only with the relevant racing series organizers who operate the connected VII Sport systems.

4. Push Notifications

If you enable push notifications, the App will store your Expo Push Token to deliver alerts about new documents or updates.

You may disable notifications at any time in your device settings.

5. Security

All communication with VII Sport servers is encrypted using HTTPS and industry-standard security protocols.

6. Contact

If you have questions about this Privacy Policy or data handling, please contact:

 admin@sepsap.ee

7. Changes to this Policy

We may update this Privacy Policy periodically.

All changes will be published at: <https://platform.vii-sport.com/vii-sport-platform-privacy-policy.pdf>
